Dummy Data in Database:

Checkout / Order form:

If don't have any items in the cart, we will not see any check out form. We need to add the items so we can check out.

The checkout form displays the following items and their details:

Item Name	Price	Quantity	Controls
Sushi	\$22.99	x 1	- +
Schnitzel	\$16.50	x 1	- +
Barbecue Burger			
Total Amount	\$71.47		

At the bottom of the form, there are two buttons: "Close" and "Order".

I've added 4 Items to the cart which is Sushi, Schnitzel, Barbecue Burger, and Green Bowl. I clicked order, and the checkout form will show up.

The screenshot shows a mobile checkout interface. At the top, there's a cart summary with four items: an unnamed item for \$16.50 (x1), Barbecue Burger for \$12.99 (x1), Green Bowl for \$18.99 (x1), and a Total Amount of \$71.47. Below the cart, there's a form with five fields: "Your Name", "Street", "Zip Code", and "City". All fields are empty. At the bottom right, there are two buttons: "Cancel" and "Confirm".

Item	Price	Quantity
Sushi	\$16.50	1
Barbecue Burger	\$12.99	1
Green Bowl	\$18.99	1
Total Amount	\$71.47	

Your Name

Street

Zip Code

City

Cancel Confirm

For checkout form if you didn't fill in anything, the checkout form will have the error show up let you need to enter the valid value. Also, you must fill out all the fields in the form to confirm the order.

This screenshot shows the same checkout form as the previous one, but with red error messages appearing below each empty field. The errors are: "Please enter a valid name!" under "Your Name", "Please enter a valid Street!" under "Street", and "Please enter a valid Zip Code!" under "Zip Code". The "City" field is still empty but has no error message yet. The "Confirm" button is still present at the bottom right.

Item	Price	Quantity
Sushi	\$16.50	1
Barbecue Burger	\$12.99	1
Green Bowl	\$18.99	1
Total Amount	\$71.47	

Your Name

Please enter a valid name!

Street

Please enter a valid Street!

Zip Code

Please enter a valid Zip Code!

City

Cancel Confirm

The value I've fill in is as below.

Your Name

Jasper

Please enter a valid name!

Street

Mansion Road

Please enter a valid Street!

Zip Code

45678

Please enter a valid zip code!

City

Dallas

Please enter a valid city!

Cancel

Confirm

After we click the confirm button, the data will send it to the firebase. The page will show "Sending order data ...". If we send successfully, the following page will show up.

Successfully sent the order!

Close

After the order complete the amount of cart will reset to 0. And the data will show on the backend server.
